

NONSEQUENTIAL PLACE RESOLUTION FORM

JUDGE	LANE _____	LANE _____
1	_____	_____
2	_____	_____
3	_____	_____
4	_____	_____
5	_____	_____
6	_____	_____

INSTRUCTIONS: Recorder should poll each judge independently regarding the placement of finish for the two lanes in question. Record the place assigned by each judge to each lane in the appropriate column. Sum the entries for each lane (column) and divide them by the number of judges polled. The lane with the lower average should be awarded the higher placement. Attach this form to the event sheet.
